Date: 10 July 2026 at 06:33 pm
Duration: 35 seconds

OVERALL SCORE

88 / 100

Accuracy: 91%
Fluency: 84%
Clarity: 89%

Speech Transcript

"I am currently practicing my English pronunciation using an advanced AI platform. My goal is to speak clearly, confidently, and naturally, which will help me in my professional development and global communication."

Identified Pronunciation Issues

Word	Issue Details	Severity	Correction Suggestion
currently	Omission of the 't' sound or weak syllable stress	Low	Ensure the 't' is lightly voiced and the first syllable 'cur' is stressed.
pronunciation	Incorrect vowel sound in 'nun'	Medium	Pronounce the second syllable as 'nun' (rhyming with 'run'), not 'noun'.
development	Incorrect stress placement	Medium	Place the primary stress on the second syllable: de-VEL-op-ment.

Actionable Improvement Tips

- Try to link words together to improve your fluency (e.g., 'practicing-my', 'goal-is-to').
- Slow down slightly when pronouncing multi-syllable words like 'pronunciation' and 'communication'.
- Pay attention to final consonant sounds; ensure the 'd' in 'advanced' is pronounced as a soft 't' sound.
